Doering & Tiernan become accredited Asbestos Inspectors

LANSING, MI – January 28, 2014: Ruth Doering and Ashlee Tiernan recently completed Asbestos Building Inspector training to qualify to conduct professional building inspections for asbestos containing materials. Following completion of the training, Doering and Tiernan were certified by the Michigan Department of Licensing and Regulatory Affairs (LARA) as accredited asbestos building inspectors.

Ms. Doering has been working as a Geologist with Triterra since May 2013. She is a recent graduate of Albion College with a Bachelor of Arts degree in Geological Sciences and English. Her primary responsibilities include conducting field assignments and data analysis along with report preparation in support of contaminant investigation and remediation projects. Additional responsibilities include conducting Phase I and II Environmental Site Assessments (ESAs), completing Baseline Environmental Assessments (BEAs), and preparing Due Care Plans associated with real estate transactions and Brownfield projects.

Ms. Tiernan has been working as an Environmental Scientist with Triterra since November 2013. She is a recent graduate of Augustana College (Rock Island, Illinois) with a Bachelor of Arts degree in Biology and Environmental Studies. Her primary responsibilities include conducting Phase I and II Environmental Site Assessments (ESAs), completing Baseline Environmental Assessments (BEAs), and preparing Due Care Plans associated with real estate transactions and Brownfield projects. Additional responsibilities include conducting field assignments and data analysis along with report preparation in support of contaminant investigation and remediation projects.

Triterra is a professional environmental consulting firm specializing in brownfield development, environmental consulting, and natural resource management services. Our team is dedicated to improving the quality of life within the community while providing consulting services that are tailored to the best interests of our client. For more information on Triterra, please contact us at (517) 702-0470 or visit our website, www.triterra.us.
