

## TRITERRA

Welcome!...

4th Quarter 2015

...to Triterra's quarterly newsletter--The LEAF. We realize that your time is limited, so we'll make this short and sweet. Every 3 months or so, we'll include a few short pieces on what's new at Triterra, projects of interest, and valuable industry news. We welcome comments from you, as well as input on pieces that you'd especially like to see.

### **PRACTICAL & CREATIVE ENVIRONMENTAL SOLUTIONS**

Triterra specializes in brownfield development, environmental consulting, and natural resource management services. Our aim is to be one of Michigan's premier environmental consulting firms...while maintaining our "boutique" atmosphere. That means: 'big' in terms of the quality we offer, but small enough to continue to provide the attention our customers deserve. Our team is dedicated to providing services that are tailored to the best interests of our client.

**IT'S NOT JUST WHAT WE DO;  
IT'S WHO WE ARE AND HOW WE DO IT.**

# THE LEAF

## Meet Our New Senior Consultant

Dave Van Haaren joined Triterra in July. With over 20 years of professional consulting experience, he manages and provides expert knowledge on customer's Brownfield and other Economic Development projects throughout Michigan. His work includes management of state

and federal environmental grant programs, coordination and technical supervision of environmental assessments and investigations, design and implementation of "due care" strategies, cost estimating and proposal preparation, and acting as a liaison with regulatory agencies.

.....

## Meet Our New Marketing Manager

Trystin (Kleiman) Vanderstelt joined Triterra this past winter. She is responsible for all of Triterra's marketing efforts. She also works jointly with other staff members on the company's business development efforts. Trystin has 15 years of marketing and business development experience. She

has a background in the real estate, construction, building materials, architecture, and engineering arenas.

.....

## Meet our New Geologist

Alan Snell joined Triterra in May. His primary responsibilities include coordinating field activities, communicating with subcontractors, completing investigations, and preparing technical reports. Alan's work focuses on asbestos and lead paint inspections; mold assessments;

field surveys to determine the presence of hazardous materials; and assisting on the investigation and remediation of leaking underground storage tanks (LUST) sites. He has a thorough understanding of regulatory requirements in identifying hazardous materials and removing their risk to humans.

## CONGRATULATIONS DON!

Our CEO, Don McNabb was honored on March 12th at the 21st Annual Entrepreneurial Awards as Greater Lansing's Socially Responsible Entrepreneur of 2015. Don received this award for his charitable dedication to bettering the Greater Lansing communities through the work of Triterra. Don is a familiar face in the community and actively involved in many efforts, particularly those in Old Town. As part of his award, Greater Lansing Business Monthly included a nice piece on Don and Triterra.
